

MUHAMMAD RAMEEZ RAZA

Computer Science graduate

Address: Sector I8 , Islamabad
Phone: +92 304 6179842
Email: mrrameez32@gmail.com

SUMMARY

Motivated and detail-oriented Computer Science graduate with hands-on experience in Artificial Intelligence, Machine Learning, Computer Vision, and Full-Stack Web Development. Experienced in developing AI-powered web applications by integrating TensorFlow/Keras image classification models with modern web technologies including React.js, Node.js, TypeScript, and SQL databases.

CORE COMPETENCIES

- Artificial Intelligence (AI)
- Machine Learning
- Computer Vision
- TensorFlow & Keras
- Image Classification
- React.js & Node.js
- AI Integration
- Prompt Engineering
- Generative AI Tools
- Model Training & Evaluation
- Web Application Development
- Database Management
- Software Engineering
- Problem Solving
- Team Collaboration

PROFESSIONAL EXPERIENCE

AI & Full-Stack Developer (Academic Project)
University of Education – Jauharabad, Pakistan
July 2025 – April 2026

Key Responsibilities & Achievements

- Designed and developed a gamified waste recycling web application using React.js, Node.js, TypeScript, and Neon Database.
- Built and integrated an AI-powered image classification system using TensorFlow/Keras with MobileNetV2 to automate waste identification and classification.
- Collected, organized, and preprocessed image datasets to improve model training quality and prediction accuracy.
- Trained, tested, evaluated, and optimized convolutional neural network (CNN) models for real-world computer vision applications.
- Integrated machine learning models into a React-based web application, enabling intelligent waste classification and recycling recommendations.
- Collaborated throughout the software development lifecycle, including planning, development, testing, debugging, and deployment.
- Produced technical documentation and maintained clean, scalable, and reusable application code following software engineering best practices.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Education, Lahore | 2022 – 2026

Higher Secondary School Certificate (HSSC) – Pre-Engineering

Sargodha Board | 2021

Secondary School Certificate (SSC) – Computer Science

Sargodha Board | 2019

TECHNICAL SKILLS

Programming Languages

- JavaScript
- TypeScript

AI & Machine Learning

- TensorFlow
- Keras
- MobileNetV2
- CNN
- Image Classification
- Model Training
- Model Evaluation
- Computer Vision
- Machine Learning

Web Technologies

- React.js
- Node.js
- HTML
- CSS
- REST APIs

Database

- Neon Database
- SQL

Development Tools

- Microsoft Office
- Microsoft Word
- Microsoft Excel

ERP SOFTWARE

- Oracle ERP
- Odoo ERP
- Microsoft Dynamics
- QuickBooks Online

LANGUAGES

- Urdu: Native
- English: Professional Working Proficiency

PROFESSIONAL SKILLS

- Financial Reporting
- Export Finance Operations
- ERP Systems Management
- Accounting & Bookkeeping
- Financial Documentation
- Analytical Thinking
- Communication Skills
- Teamwork
- Organizational Skills
