ABOUT ME

AI is changing how people work, solve problems, and build digital solutions, and I am interested in being part of that change. As a Computer Science graduate, I am exploring the practical use of AI, automation, and modern digital tools to turn ideas into efficient and useful solutions.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science (BSCS)

University of Education, Lahore [19/09/2022 – 25/06/2026]

Website: https://ue.edu.pk/

Main Subjects: Data Structures and Algorithms, Database Systems, Software Engineering, Artificial Intelligence, Machine Learning, Computer Networks, Operating Systems, and Web Development.

Higher Secondary School Certificate (HSSC) – Pre-Engineering

Superior Group of Colleges (BISE Sargodha) [21/06/2019 – 21/06/2021]

City: Jauharabad | **Country:** Pakistan

WORK EXPERIENCE

Erudite Solution Ltd. – Islamabad, Pakistan

Computer Vision / AI Intern

[08/06/2026 – 20/07/2026]

- Worked on Computer Vision and AI concepts, developing practical understanding of image-based machine learning workflows and AI technologies
- Strengthened practical skills through a 30-hour/week hybrid internship involving both remote and office-based learning and development activities.

Aye Zee Travel & Holidays (Pvt. Ltd.) – Lahore, Pakistan

Marketing & Administrative Assistant

[08/11/2021 – 25/07/2022]

- Managed digital and social media operations, handled client inquiries, and provided travel-related customer support.
- Supported daily administrative workflows, maintained documentation, and organized records to ensure smooth office operations.

SKILLS

Web Development

Node.js / JavaScript / React.js / CSS & HTML / Python / PostgreSQL

Artifical Intelligence

CNN / artificial neural networks / Machine Learning (AI, DL, CNN) / n8n / AI automation

Networking

Cisco PAcket Tracer / Cisco CLI

Development Tools

Git/Github, Docker, Gitlab / VS-code / vercel

AI Tools

Antigravity / Replit / Google Flow / claude / cursor

PROJECTS

[12/06/2025 – 06/04/2026]

Trash2Treasure — Smart Waste Rewarding System | Final Year Project

- Developed a gamified waste recycling web application using React, Node.js, TypeScript, and Neon Database.
- Implemented a CNN-based image classification model for waste sorting and recycling recommendations.

Links: https://www.kaggle.com/code/bsf58rameezraza/waste-classification-model/edit | https://github.com/rameez-hub125/treasure-to-trash

School Management System

- Developed a full-stack School Management System with role-based portals for Admin, Teacher, Student, and Parent, including attendance, fees, academics, and analytics.
- Built using React, Node.js, Express.js, MongoDB, Tailwind CSS, and REST APIs, with interactive dashboards and PDF report generation.

Link: https://github.com/rameez-hub125/School-Managment-sys

AirGuard— Explainable AI Air Quality Forecasting System

- A Transformer-based time-series forecasting model to predict AQI up to 24 hours ahead using engineered environmental and temporal features.
- Implemented Explainable AI (XAI) with Transformer attention analysis and an interactive Streamlit dashboard.

Link: https://github.com/rameez-hub125/Air-Guard

ClinicalCare — Clinical Management System

- Developed a clinical management system to support the digital organization of clinical workflows and healthcare-related information.
- Focused on building a user-friendly software solution to improve data organization, accessibility, and operational efficiency in a clinical environment.

Link: https://github.com/rameez-hub125/Clinical-system

CERTIFICATIONS

AI in Action

- Learned Prompt & Contextual Engineering
- Learned Practical AI Application Techniques

Link: https://rameez-portfolio-delta.vercel.app/certificates/forage-ai-in-action-certificate.pdf

Data Science & Analytics

- Data science and analytics practices, methodologies, and tools
- Data-driven approaches for business
- Essential skills for pursuing a career in data science and analytics

Link: https://rameez-portfolio-delta.vercel.app/certificates/hp-data-science-analytics.pdf

One Million Prompters Certificate

- Developed practical skills in prompt engineering to create effective prompts for AI-powered tools and applications.
- Applied generative AI techniques to improve task efficiency, content generation, and problem-solving.

Link: https://rameez-portfolio-delta.vercel.app/certificates/one-million-prompters-dubai-future-foundation.pdf

HONOURS AND AWARDS

University of Education, Lahore

Inter-Campus Sports Gala

- Represented the Jauharabad Campus in volleyball at the university's inter-campus sports competition.
- Participated in the competition on 2 occasions, competing alongside teams from different University of Education campuses.

District Public School & Inter College, Khushab

Inter-House Sports Competition

- Participated in inter-house sports competitions, demonstrating teamwork, and commitment to achieving shared goals.
- Strengthened collaboration, sportsmanship, and perseverance through competitive sports activities.

SOCIAL AND POLITICAL ACTIVITIES

University of Education, Jauharabad

Senior Vice President — Peoples Student Federation (PSF)

- Participated in student and campus-level organizational activities and represented student interests in the organization.
- Contributed to coordination and engagement in student-related activities.

CONFERENCES AND SEMINARS

University of Education, Lahore

Artificial Intelligence & Machine Learning Seminar

- Gained an overview of emerging AI technologies and their applications in different fields.
- Learned about the role of Machine Learning in solving real-world problems through data-driven approaches.
- Explored current developments and potential applications of AI and ML in modern technology.

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s): English
